

Barcode Scanner to be used with Shop Floor

In order to use the barcode scanning feature of Shop Floor, you will need to purchase a barcode scanner.

The scanner to be used in conjunction with Activity Software's® Shop Floor is the **Wasp WCS3900 CCD Barcode Scanner**. Here is an image of the scanner from the manufacturer's website:

To order this scanner or to learn more information about it, please visit **Wasp Barcode Technologies'** website at:

http://www.waspbarcode.com/scanners/ccd_barcode_scanner.asp

On their website, there are two options. You can get a barcode scanner with a USB or PS2 connection. ***We recommend that you get a barcode scanner with a USB connection.***
